Professional Experience

Sr. Data Scientist | Morningstar Sustainalytics | Jan 2023 - Mar 2026

- Streamlined data ingestion workflows to process 400,000+ news articles daily by engineering an automated ETL process using Python, reducing manual data handling and improving analysis turnaround.
- Optimized business support operations by integrating a GPT-powered LLM solution (OpenAI API), successfully reducing daily manual research tasks by 25% (1,000 articles) for the ESG Research team.
- Enhanced management's decision-making capabilities by engineering a Python-based Plotly dashboard (open source alternative to Power BI/Tableau) to track ESG Research workload distribution, enabling data-driven insights into team productivity and bottleneck identification.
- Helped Business Analysts with explaining AI model performance metric concepts such as Accuracy, Precision, Recall to the Senior Leadership Team.

Data Scientist | Morningstar Sustainalytics | Jun 2022 - Jan 2023

- Optimized the analysis of public Sustainability/Annual Reports by developing an EU Taxonomy Detection tool, reducing manual review time by 25% through the implementation of a RAG-based data model to automate disclosure detection.
- Enhanced business analysis accuracy by reducing noise by 50% for the Thematic Crawler by engineering a multi-layer text mining framework to streamline data processing

Business Analyst | Morningstar Sustainalytics | Nov 2021 - Jun 2022

- Orchestrated the deployment of customized Thematic Crawler applications using Python & SQL, resulting in a 75% reduction in manual data extraction time, by facilitating cross-functional requirement-gathering sessions to align technical capabilities with diverse business needs

Technical Skills

- **Languages:** Python, VBA, SQL
- **Frameworks:** NumPy/Pandas, scikit-learn
- **Tools:** LLM, AWS, Docker, Git

Projects

Rogers Centre Attendance Forecast

Loaded attendance data from MLB's StatsAPI into a Postgres database, then created a regression forecast using XGBoost of the attendance figures.

Education

- **B.S. in Statistics**, University of Toronto
